

§ 972.221

24 CFR Ch. IX (4–1–11 Edition)

of the public housing development on the neighborhood in which the public housing is located. This must include:

(1) The impact on the availability of affordable housing in the neighborhood;

(2) The impact on the concentration of poverty in the neighborhood; and

(3) Other substantial impacts on the neighborhood.

(e) *Conversion implementation.* If a PHA intends to convert the development (or a portion of it) to tenant-based assistance, the conversion assessment must include a description of any actions the PHA plans to take in converting the development. This must include a general description of the planned future uses of the development, and the means and timetable for accomplishing such uses.

§ 972.221. Timing of submission of conversion assessments to HUD.

(a) *Submission with PHA Plan.* A PHA that wishes to convert a public housing development to tenant-based assistance must submit a conversion assessment to HUD with its next PHA Annual Plan.

(b) *Updated conversion assessment.* Where a PHA proposes to convert a development to tenant-based assistance, it must submit an updated conversion assessment if the conversion assessment otherwise would be more than one year older than the conversion plan to be submitted to HUD. To update a conversion assessment, a PHA must ensure that the analysis of rental market conditions is based on the most recently available data, and must include any data that have changed since the initial conversion assessment. A PHA may submit the initial cost analysis and comparison of the market value of the public housing before and after rehabilitation and/or conversion if there is no reason to believe that such information has changed significantly.

§ 972.224. Necessary conditions for HUD approval of conversion.

(a) *Conditions.* In order to convert a public housing development, the PHA must conduct a conversion assessment that demonstrates that the conversion of the development:

(1) Will not be more expensive than continuing to operate the development (or portion of it) as public housing;

(2) Will principally benefit the residents of the public housing development (or portion thereof) to be converted, the PHA, and the community; and

(3) Will not adversely affect the availability of affordable housing in the community.

(b) *Evidence*—(1) *Relative expense.* The relative expense of continuing operation as public housing or conversion to tenant-based assistance may be demonstrated by the cost analysis and market value analysis.

(2) *Benefit to residents, PHA, and the community.* (i) The benefit to residents, the PHA, and the community may be demonstrated in the rental market analysis, the analysis of the impact on the neighborhood, the market value analysis, and the proposed future use of the development. In determining whether a conversion will principally benefit residents, the PHA, and the community, HUD will consider whether the conversion will conflict with any litigation settlement agreements, voluntary compliance agreements, or other remedial agreements signed by the PHA with HUD.

(ii) In making the determination of whether a conversion would principally benefit residents, the PHA, and the community, the PHA must consider such factors as the availability of landlords providing tenant-based assistance, as well as access to schools, jobs, and transportation.

(iii) To determine the benefit to residents, the PHA must hold at least one public meeting with residents of the affected site (including the duly elected Resident Council, if any, that covers the development in question). At the meeting, the PHA must:

(A) Explain the requirements of section 22 of the United States Housing Act of 1937 and these regulations, especially as they apply to residents of affected developments;

(B) Provide draft copies of the conversion assessment to the residents; and
